COVID-19 UPDATE

As we move into the first phase of re-opening the credit union, I would like to take the opportunity to thank our members for their patience and understanding while we worked through such a challenging time. WPCU truly values your business and it was only your willingness to accept change that has allowed us to continue to serve you while keeping everyone safe.

All of us at WPCU look forward to seeing you soon.

I would also like to acknowledge our dedicated employees, who came to the office every day during our modified closure to keep operations running smoothly and who continued to find new and creative ways to deliver to our members the service they deserve.

COVID-19 is still very much a concern and we will have to work within this new normal for some time to come. To ensure the safety of everyone, members and employees, I ask members to continue to co-operate with WPCU and honor the social distancing protocols in place when attending the credit union.

Our sincere thanks!

Upcoming Banking System Conversion Notice

Dear Valued Members,

The Winnipeg Police Credit Union (WPCU) is proud to be your provider of banking services. In order to meet your specific needs, and to stay on top of the ever-changing financial landscape, WPCU has implemented a number of new platforms over the past few years. Technology continues to push us all forward and offers different and more convenient ways for you to interact with us and access your account information. Mobile apps, remote deposit capture and e-transfers are all examples of this. Technology and banking go hand-in-hand and, as with all technology, regular updates are required to ensure security.

With this in mind, I would like to take this opportunity to announce that WPCU has begun working through conversion to a new banking system and our projected conversion date is September 30, 2020. The banking system of any financial institution is perhaps the most important system it uses and is integral to the day-to-day operations. This system maintains member's accounts and processes all transactions. This system is the interface between you, us and other systems involved with transaction processing.

Our current banking system was implemented in 2006 and has served the credit union well, but, like most systems, it requires updating. While a significant cost of both dollars and time, it is a necessity, as our current system will not meet the technological standards required to serve you, our members, going forward.

It is our desire to minimize the disruption this conversion will have on your daily banking needs and, in preparation, we will be providing you with information over the next few months by way of mail and electronic means. ***Please ensure you take the time to open and read all correspondence you receive from WPCU as it will contain important information you will need to know to work through the conversion process with us.***

In advance, I wish to thank all members for their co-operation during this system transition. WPCU looks forward to being your financial service provider for many years to come.

Sincerely,

Cal Berzuk
CHIEF EXECUTIVE OFFICER
